

# Cisco Compatible 100G Direct Attach Cables

Sole Networks is now building Cisco compatible 100G Direct Attach Cables in a wide range of lengths to meet your needs. Pushing the limits of technology, these direct attach fiber cables offer fast and efficient data transfer through copper and optical fiber. We offer built to order cables in custom lengths to perfectly fit the needs of your rack and aid cable management. Our cables offer a new level of price and performance flexibility and come with a Lifetime Warranty.

## Features:

- Up to 100 Gb/s bi-directional data links
- Hot-pluggable QSFP28 footprint
- 4 independent duplex 28Gbps channels
- Coupled inputs and outputs
- 100 Ohm differential impedance
- Metal housing for superior EMI performance

## QSFP28 to QSFP28 Copper

- Passive**
  - Up to 100Gb/s Ethernet & Fiber Channel
  - Lengths from 50cm to 5m
- Active**
  - Up to 100Gb/s Ethernet & Fiber Channel
  - Lengths from 50cm to 10m

## QSFP28 to QSFP28 Optical

- Active**
  - Up to 100Gb/s Ethernet & Fiber Channel & Infiniband
  - Lengths from 1m to 100m

## QSFP28 to 4xSFP28 Copper

- Passive**
  - Up to 4x25Gb/s Ethernet & Fiber Channel
  - Lengths from 50cm to 5m
- Active**
  - Up to 4x25Gb/s Ethernet & Fiber Channel
  - Lengths from 50cm to 10m

QSFP-100G-CUxM	100GBASE-CR4 QSFP Passive Copper Cable Cisco Compatible
QSFP-4SFP25G-CUxM	100GBase QSFP to 4xSFP25G Passive Copper Cable Cisco Compatible
QSFP-100G-AOCxM	100GBase QSFP Active Optical Cable Cisco Compatible
